## **READING UPDATE**

A reading update was giving by the reading coaches, Linda Hanson, Evelyn DeRosa and Marie Janiak. The presentation included handouts and an overhead presentation of key program elements of 06/07.

**All seven elementary schools have completed first round of assessments and reading intervention services according the three-**

*tier model. All data will be stored on uniform spreadsheets that exist on servers at all the elementary schools. A mid year reading assessment will be completed and recorded on the uniform spreadsheets by February 9. This will track the progress of students reading below grade level and to see how students are progressing. This will determine which students will receive reading intervention services for round 2.*

*The progress of this program is much appreciated by teachers, parents and the students themselves. They all like the consistency of daily intervention from trained staff; the data that is kept on each student and that this is not a whole year program. The students who have not received services in round 1 might be able to get them in round 2 of the program.*

**Supt. Levenson** reported the collective efforts of all principals, reading coaches, reading teachers, specialist and classroom teachers working together to review the data makes this a district wide success.

**SPECIAL EDUCATION UPDATE**

**BJ Cataldo** acknowledged with the collaboration of staff, the special education department over the past eighteen months out of the 193 items the DOE requires, there are only 7 very small pieces left to give to the DOE. Timelines have clearly improved and the staff has set up the foundation for regular ed and special ed to work together to discuss inclusion, accommodations, and modifications. The PAC group is instrumental to the success of this department and the programs that are planned have been well received.

**Nancy Campbell**, the Out of District Coordinator, and **Elette DiPietro**, the In District Coordinator for Special Education gave an update of special education programs. The handout explained each program and at what grade level these programs are being offered.

*It was clear from the discussion that special education has a lot of programs, but some of these are now stretched. Ms. Campbell raised the issue to see if any of these programs need to be changed to accommodate appropriate students. A place to start was development of programs at the elementary level with students that are more disabled k-5. Ms. DiPietro stressed the need for development of programs and that the infrastructure last over time. This will be an investment that would allow our current staff professional development for regular ed and special ed to provide services to keep our children in town.*

**BREAK**

**THE CONCEPT OF A DIVERSION PROGRAM**

**Supt. Levenson** wanted to share with the Committee information that he has been working on for over a year the concept of a diversion program with Mr. Skidmore, Police Chief Ryan, Ms. Bouvier and the Youth, Health and Safety Coalition.

This program is in its development stage. The concept would be for first time non-violent offenders and their families' to be diverted from criminal prosecution in a structured and consistent manner. Chief Ryan stressed he would like to see more structure and consistency with dealing with minors and offenders, within his own department. He would like to hold the youngsters accountable and provide an incentive to have the youths make good decisions.

**A diversion program might look like:**

- Youth enters into a contract,
- Youth agrees to substance abuse counseling or other counseling
- Youth agrees to community service
- Youth agrees not to re offend
- any other community base program to help to the youth to not re offend again
- 

*The DA offers a program but not on school offenses, and Arlington could create their own community-based program.*

*On a motion Mr. Thielman seconded by Ms. Fennelly it was*

*Voted to have the superintendent work with the Police Department on a diversion program and report back to the committee on a plan by June 30, 2007*

*Unanimous vote 7-0.*

**SUPERINTENDENT'S REPORT**

*Kevin O'Brien from Planning Department sent a Smart Growth Survey and asked members of the School Committee to complete this regarding long term planning. Ms. Sheffler stated that Mr. O'Brien will be at the February 13, 2007 School Committee meeting to follow up on survey results.*

**Supt. Levenson** was thrilled to announce next year the Arlington Public Schools will expand on childcare coverage for staff. The program will move from the Hardy School and relocate to the Stratton School.. The space at the Stratton will be first-rate facility for childcare. Taxpayers do not need to worry because there will be no cost to the district. This new space will triple the amount of children and expand the age range for childcare. This is a school-based program, which is cost effective and convenient to

have childcare within the district for the staff.
